Self-Care for Our Montefiore-Einstein Associates

How Can I Stay Emotionally Healthy?

- ✓ **Know the warning signs.** Everyone reacts to stress differently. When things aren't going as planned, or you feel overwhelmed or like you are losing control pay attention to the warning signs and take extra care. Some common stress warning signs include:

- Headaches, muscle tension, neck or back pain
- Upset stomach
- Dry mouth
- Chest pains, rapid heartbeat
- Difficulty falling or staying asleep
- Fatigue
- Loss of appetite or overeating "comfort foods"

- Increased frequency of colds
- Lack of concentration or focus
- Memory problems or forgetfulness
- Jitters
- Irritability
- Short temper
- Anxiety

- ✓ **Connect with others.** Reaching out to friends and loved ones is one of the best ways to reduce anxiety, depression & loneliness. You can do this virtually. Share your concerns, talk and laugh "face to face." Speaking to a professional counselor is also a helpful choice.
- ✓ **Take care of your body & mind.** This is even more important during stressful times. Take deep breaths, stretch or meditate. Try to **eat healthy foods, get adequate sleep**. Avoid unhealthy ways of coping, like alcohol and drugs. Focusing on the positive and staying hopeful can help manage stress. Consider keeping a journal where you write about things that are going well or for which you feel grateful. Remind yourself that this situation will pass.
- ✓ **Stay Active.** Take some time to move your body. Try going for a walk, bike riding, or doing some at-home exercises.
- ✓ **Stick to a daily routine.** Keep your usual routines for such things as mealtimes, bedtime and waking time. This helps life feel safe and predictable.

- ✓ **Take Breaks.** Make time to relax and plan activities that you enjoy.
- ✓ **Limit time watching news and on social media.** Regularly reading or listening to scary messages may not help with planning and may only increase your anxiety. Take care of yourself by limiting the time you and your family spend watching or listening to upsetting news. To get the facts you need to keep yourself and your family safe, look for information on Montefiore's intranet, the WHO and CDC websites or local public health agencies, and limit how much you **check those websites to 2-3 times per day.**

Safety Concerns:

- ✓ **If you or someone near you is a clear and present danger to themselves or others call 911**
- ✓ **National Suicide Prevention Lifeline (24/7): Call 1-800-273-TALK (8255) or for Español 1-888-628-9454**
